FOR IMMEDIATE RELEASE

BURBANK, CA, USA - October 25, 2021 - Universal Switching Corporation (uswi.com), a global manufacturer of signal switching and distribution products, announced that it was audited by ANAB accredited NQA, USA, and it was recommended for continued certification to ISO 9001:2015. The external audit, performed on-site by one of NQA's most experienced auditors, confirmed what clients and vendors have already come to expect from Universal Switching Corporation: That our products and services are of the utmost quality and will continue to exceed our customers' expectations of performance, delivery, and support.

Of all QMS regimes, the ISO 9000 family of standards is probably the most widely implemented across the global. Mr. Grodin, Quality Manager, indicated that the company originally achieved ISO 9001 in 2007 and improves every aspect of the company. Universal Switching Corporation's management team fully supports the ISO process and its function within the company. The tremendous teamwork and dedication shown by all "Team USC" employees to the Quality Management System has resulted in continuous re-certification by National Quality Assurance since their QMS process was effected.
